

CLOUDPRIME ENTERPRISE

Enterprise Cloud Infrastructure Proposal for Meridian Logistics GmbH

Proposal Reference: CP-2026-MEL-001 | Valid Until: August 31, 2026

Executive Summary

CloudPrime Enterprise is pleased to present this comprehensive cloud infrastructure proposal for Meridian Logistics GmbH. As Europe's fastest-growing hyperscale cloud provider, CloudPrime operates 14 data centres across the EU with primary facilities in Frankfurt (CP-FRA-1, CP-FRA-2) and Munich (CP-MUC-1). We serve over 3,200 enterprise clients across logistics, manufacturing, and financial services.

Our proposal delivers a five-year TCO of €29.4 million against Meridian's €34 million envelope — representing a 13.5% saving versus the budget ceiling. Year 1 all-inclusive cost is €5.82 million, comfortably within the €7.2 million ceiling.

1. Company Profile and Financial Stability

CloudPrime was founded in 2014 and completed its IPO on Euronext Amsterdam in 2021 at a valuation of €4.2 billion. Current market capitalisation is €7.8 billion (May 2026). Revenue for FY2025 was €1.1 billion with EBITDA margin of 28%. The company carries zero long-term debt and maintains €420 million in cash reserves.

Founded	2014, Amsterdam
HQ	Amsterdam, Netherlands
EU Data Centres	14 (Frankfurt x2, Munich, Berlin, Paris, Amsterdam, Warsaw, Madrid, Milan, Stockholm, Vienna, etc.)
Enterprise Clients	3,200+
FY2025 Revenue	€1.1 billion
EBITDA Margin	28%
Employees	6,800
Carbon Status	Carbon Neutral since 2024, targeting Carbon Negative by 2027

2. Compliance and Security Certifications

CloudPrime maintains the most comprehensive compliance portfolio of any European-headquartered cloud provider:

ISO 27001:2022	ACTIVE	March 2027	All EU data centres
ISO 27017 (Cloud Security)	ACTIVE	March 2027	All regions
ISO 27018 (PII in Cloud)	ACTIVE	March 2027	All regions
SOC 2 Type II	ACTIVE	November 2026	FRA-1, FRA-2, MUC-1
CSA STAR Level 2	ACTIVE	June 2027	All EU data centres
BSI C5 (Germany)	ACTIVE	December 2026	FRA-1, FRA-2, MUC-1
ENS High (Spain)	ACTIVE	September 2026	MAD-1
GDPR DPA	Standard Compliant	N/A	All EU regions
TISAX (Automotive)	Level 3 ACTIVE	August 2026	FRA-1, MUC-1

TISAX Level 3 certification is specifically relevant to Meridian's automotive logistics clients. CloudPrime is one of only three European cloud providers holding active TISAX Level 3 status — directly supporting Meridian's automotive sector requirements.

3. Technical Architecture for Meridian

3.1 SAP S/4HANA Infrastructure

CloudPrime is a certified SAP Infrastructure Partner with 147 active SAP S/4HANA deployments across the EU. For Meridian's S/4HANA 2022 environment, we propose:

- Bare-metal SAP HANA nodes: 2x CP-BM-SAP-96 (96-core, 12TB RAM) in active-passive HA configuration
- SAP Application Servers: 8x CP-C2-32 (32 vCPU, 128GB RAM) auto-scaling group
- SAP Basis managed service included at no additional cost
- SAP LT Replication Server pre-configured for real-time data replication to analytics layer
- Direct SAP CAL (Cloud Application Library) integration
- Migration support: CloudPrime SAP Migration Factory — dedicated 6-person team for 12-week migration

3.2 Container and Application Platform

CloudPrime Kubernetes Service (CKS) is a fully managed Kubernetes 1.29 platform requiring zero additional tooling. Unlike competitors requiring Helm, Terraform, or third-party operators, CKS provides:

- One-click cluster provisioning in under 4 minutes
- Auto-scaling: horizontal and vertical pod autoscaler pre-configured
- GitOps integration: native ArgoCD and FluxCD operators included
- Service mesh: Istio 1.21 pre-installed and managed
- Observability: Prometheus, Grafana, Jaeger stack included at no extra cost
- Multi-cluster federation across FRA and MUC regions

3.3 Network and Connectivity

- Dedicated 10Gbps private interconnect from Meridian Frankfurt HQ to CP-FRA-1 (no egress charges on this link)
- Zero egress fees for data transfers between CloudPrime EU regions
- BGP peering at DE-CIX Frankfurt for optimal routing
- SD-WAN integration with Meridians existing Cisco Meraki overlay
- Private connectivity to SAP, Salesforce, and Microsoft 365 via CloudPrime Connect

4. Pricing and Commercial Terms

4.1 Five-Year Total Cost of Ownership

SAP HANA Infrastructure	1,840,000	1,877,000	1,914,000	1,952,000	1,991,000
Application & Compute	980,000	999,600	1,019,600	1,040,000	1,060,800
Storage (PB-scale)	420,000	428,400	436,968	445,707	454,621
Network & Connectivity	180,000	183,600	187,272	191,017	194,838
Managed Kubernetes (CKS)	0	0	0	0	0
Security & Compliance Tools	240,000	244,800	249,696	254,690	259,784
Support (Platinum 24/7)	160,000	163,200	166,464	169,793	173,189
Migration Services (Y1 only)	0	0	0	0	0
TOTAL	5,820,000	5,896,600	5,974,000	6,053,207	6,134,232

Note: Migration services (€380,000 value) included at no charge as part of strategic partnership. Kubernetes service (€240,000 annual value) included at no charge. Price escalation capped at 2% per annum — below the 4% maximum Meridian specified.

4.2 Multi-Year Discount Structure

1 Year	0%	Standard SLA
3 Year	18%	Dedicated CSM included
5 Year (Proposed)	27%	Migration included + Platinum Support + TISAX audit support

5. Service Level Agreement

Compute (FRA-1 + FRA-2 HA)	99.99%	15 minutes	10x credit for each hour below SLA
SAP HANA Bare Metal	99.95%	15 minutes	10x credit
Storage (Block)	99.999%	30 minutes	5x credit
Kubernetes (CKS)	99.95%	15 minutes	10x credit
Network (EU inter-region)	99.99%	15 minutes	10x credit
Support Portal	99.9%	30 minutes	2x credit

6. Support Model

Platinum Support (included in proposal pricing):

- 24/7/365 support via phone, email, and dedicated Slack channel
- Named Technical Account Manager (TAM) — dedicated to Meridian account
- Named Customer Success Manager (CSM) — dedicated to Meridian account
- Quarterly Executive Business Reviews with CloudPrime VP Engineering
- P1 response: 15 minutes (verbal), 1 hour (action plan), 4 hours (resolution target)
- P2 response: 2 hours (verbal), 8 hours (action plan)
- Proactive monitoring: CloudPrime NOC monitors Meridian environment 24/7
- Annual architecture review included
- Unlimited support tickets at no additional cost

7. Case Studies — Logistics Sector

7.1 PanEuro Freight GmbH (Similar Profile)

PanEuro Freight, a 9,000-employee logistics company headquartered in Hamburg, migrated their full SAP S/4HANA environment and 47 microservices to CloudPrime in Q3 2024. Migration completed 2 weeks ahead of schedule. Year 1 infrastructure costs reduced by 31% vs their previous on-premise environment. SAP performance improved by 40% on CloudPrime bare metal vs previous virtualised environment.

7.2 AutoParts Distribution AG

AutoParts Distribution, operating across 18 European countries with TISAX requirements, migrated to CloudPrime in 2023. The TISAX Level 3 compliance requirement was met within 6 weeks of deployment. Support response times averaged 11 minutes for P1 incidents across 18 months of operation.

8. Risk Mitigation and Exit Rights

- Data portability: all Meridian data exportable in open formats (Parquet, CSV, JSON) within 30 days of notice
- Exit support: CloudPrime provides 90 days of migration support at no charge upon contract termination
- API standards: all CloudPrime APIs conform to OpenAPI 3.0 — no proprietary API lock-in
- Escrow: CloudPrime source code held in escrow with Iron Mountain — accessible to Meridian upon insolvency event
- Sub-processor disclosure: full list of 12 sub-processors disclosed in Appendix A, all EU-based

- Right to audit: Meridian audit team access within 15 business days notice — no restriction
