

OMEGACLOUD ENTERPRISE

Strategic Cloud Partnership Proposal — Meridian Logistics GmbH

Proposal: OCE-MEL-2026-STRAT | Prepared: May 2026 | Strictly Confidential

Executive Overview

OmegaCloud Enterprise is the cloud infrastructure division of Omega Global Technologies, a Singapore-headquartered technology group listed on SGX and NYSE. OmegaCloud operates 38 global regions making it one of the largest cloud providers by geographic footprint. EU presence includes Frankfurt, Amsterdam, Paris, Milan, and Madrid.

OmegaCloud's proposal for Meridian is the most aggressive commercially: Year 1 all-inclusive cost of €4.98 million — the lowest in this evaluation. Our global scale, 99.99% compute SLA, and extensive AI/ML platform make us the strongest choice for Meridian's 5-year digital transformation ambitions.

1. Corporate Profile

Parent	Omega Global Technologies Ltd (NYSE: OGMT, SGX: O88)
Market Cap	\$31 billion (May 2026)
Cloud Revenue FY2025	\$8.2 billion (+41% YoY)
Global Regions	38 across 6 continents
EU Regions	5 (Frankfurt, Amsterdam, Paris, Milan, Madrid)
Enterprise Clients	18,000 globally
Employees	28,000
Carbon Status	Carbon Neutral since 2024, targeting Net Negative by 2028

2. Compliance Status

ISO 27001:2022	ACTIVE	October 2027	All 5 EU regions
SOC 2 Type II	ACTIVE	June 2027	Frankfurt, Amsterdam, Paris
ISO 27017	ACTIVE	October 2027	All EU regions
PCI DSS Level 1	ACTIVE	August 2026	Frankfurt, Amsterdam
GDPR DPA	Standard (Singapore law governed)	N/A	All EU regions
BSI C5	NOT ACHIEVED	No roadmap provided	N/A
TISAX	NOT ACHIEVED	No roadmap provided	N/A
ISO 27018	IN PROGRESS	Expected Q4 2026	Frankfurt only

CRITICAL COMPLIANCE GAPS: OmegaCloud's GDPR Data Processing Agreement is governed under Singapore law, not German/EU law. This creates potential GDPR Article 46 compliance risk. OmegaCloud has no BSI C5 certification and no TISAX certification with no stated roadmap for either. For a German logistics company with automotive clients, these gaps are material.

CLOUD ACT EXPOSURE: As a NYSE-listed entity with US operations, OmegaCloud is subject to the US CLOUD Act. This means US law enforcement can compel OmegaCloud to provide access to data stored in EU data centres without EU judicial review. This is a significant GDPR risk that Meridian's Data Protection Officer must assess.

3. Technical Platform

3.1 OmegaCompute — AI-Optimised Infrastructure

- OmegaCompute X4: 128 vCPU, 512GB RAM — highest performance compute in this evaluation
- GPU: NVIDIA H100 SXM5 clusters available in Frankfurt — strongest ML capability
- Auto-scaling: Predictive scaling using OmegaAI — 99.2% accuracy on traffic prediction
- Bare metal: available in 4-hour provisioning time
- Spot instances: up to 80% discount for fault-tolerant batch workloads

3.2 SAP on OmegaCloud

- OmegaCloud is SAP Endorsed App partner
- OM-SAP-ULTRA: 256-core, 32TB RAM — largest SAP node in this evaluation
- SAP HANA: certified and validated for S/4HANA 2022
- Migration: OmegaMigrate platform — AI-assisted migration estimated 12-15 weeks
- SAP BASIS: additional service €95,000/year — not included in base pricing
- Note: Only 12 SAP S/4HANA migrations completed in EU vs competitors 95-147

3.3 OmegaKube

- Managed Kubernetes 1.29 — most recent version in this evaluation
- OmegaMesh: service mesh (proprietary, Envoy-based)
- Multi-region federation: strongest in this evaluation — 38 regions available
- AI-assisted container optimisation: automatically right-sizes containers saving average 31%

4. Pricing

SAP HANA Infrastructure	1,480,000	1,509,600	1,539,792	1,570,588	1,602,000
Compute (OmegaCompute)	1,100,000	1,122,000	1,144,440	1,167,329	1,190,676
Storage	340,000	346,800	353,736	360,811	368,027
Network & Egress	240,000	244,800	249,696	254,690	259,784
OmegaAI Platform	280,000	285,600	291,312	297,138	303,081
SAP BASIS	95,000	95,000	95,000	95,000	95,000
Security Suite	220,000	224,400	228,888	233,466	238,135
Support (Enterprise+)	225,000	229,500	234,090	238,772	243,547
TOTAL	4,980,000	5,057,700	5,136,954	5,217,794	5,300,250

OmegaCloud 5-year TCO: €25.69 million — lowest in this evaluation by €1.17 million vs DataVault. Aggressive pricing enabled by global scale efficiency. Year 1 at €4.98 million is €240,000 below DataVault and €840,000 below CloudPrime.

5. SLA

Compute (Multi-AZ)	99.99%	15 minutes	10x credit
SAP HANA	99.95%	15 minutes	10x credit
Storage	99.999%	30 minutes	5x credit
OmegaKube	99.99%	15 minutes	10x credit
OmegaAI Platform	99.9%	1 hour	3x credit

6. Support

- 24/7/365 support via phone, email, and dedicated Slack
- Dedicated TAM: included in Enterprise+ tier
- P1 response: 15 minutes — matches CloudPrime (fastest in evaluation)
- Global NOC with 3,200 support engineers across 12 time zones
- Meridian would be supported from Frankfurt and Singapore NOC centres
- Executive escalation path to OmegaCloud EU VP within 2 hours for critical incidents

7. Risk Disclosure

- GDPR DPA governed by Singapore law — Meridian legal team must validate compliance with GDPR Article 46
- US CLOUD Act applicability — Meridian DPO assessment mandatory before contract
- BSI C5: no certification and no roadmap — significant gap for regulated German enterprises
- TISAX: no certification and no roadmap — Meridian automotive logistics clients may object
- EU SAP experience: only 12 S/4HANA migrations completed — limited track record vs competitors
- Data residency: OmegaCloud processes support ticket data and telemetry in Singapore — GDPR implications
- Exit costs: OmegaCloud proprietary tools (OmegaMesh, OmegaAI) create technology lock-in risk
- Egress fees: outbound data transfer to internet charged at €0.08/GB after 10TB/month free tier
